What is the average cost of a pharmacy Business owners insurance policy?

Although

we'd like to be able to post "book rates" for Pharmacy Insurance costs, it would be impossible to do so as the cost to insure a Pharmacy is based on factors unique to all pharmacies: square footage, building construction, security features, location, liability insurance limits requested, and property insurance coverages. However the information questionnaire needed to rate the insurance coverage cost is a quick and simple process.

Typically a Pharmacy BOP Insurance policy is very competitively priced, however remember the BOP Policy does not provide coverage to items such as Workers' Compensation, or Commercial Auto Insurance but we can include the Professional Liability Exposure and provide the other insurance coverages.
